BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

The Honorable Board of Supervisors
County of Los Angeles

SACHI A. HAMAI
EXECUTIVE OFFICER

Dear Supervisors:

**DELEGATE AUTHORITY FOR
THE COUNTY OF LOS ANGELES TO
ENTER INTO MEMORANDUMS OF UNDERSTANDING
AND ANY SUBSEQUENT AMENDMENTS FOR DEVELOPMENT OF
ENHANCED WATERSHED MANAGEMENT PROGRAMS OR
WATERSHED MANAGEMENT PROGRAMS AND
COORDINATED INTEGRATED MONITORING PROGRAMS
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

SUBJECT

This action is to authorize the Director of Public Works or her designee to execute, on behalf of the County of Los Angeles, cost-sharing Memorandums of Understanding, including subsequent amendments, for the development of Enhanced Watershed Management Programs or Watershed Management Programs and Coordinated Integrated Monitoring Programs with other Permittees under the National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System Permit. Development of the aforementioned programs enables compliance with the Municipal Separate Storm Sewer System Permit.

IT IS RECOMMENDED THAT THE BOARD:

1. Find that the proposed action in the recommendation below is exempt from the California Environmental Quality Act for the reasons stated in this letter and in the record of the project.
2. Authorize the Director of Public Works or her designee to execute, on behalf of the County of Los Angeles, cost-sharing Memorandums of Understanding substantially similar to the enclosed Memorandum of Understanding, including subsequent amendments, provided that (a) the County of

Los Angeles' total cost-share for each Memorandum of Understanding, including subsequent amendments, does not exceed \$550,000, which includes a 10 percent contingency, and (b) the aggregate cost to the County of Los Angeles for all of the Memorandums of Understanding does not exceed \$4,500,000. The Memorandums of Understanding are for the development of Enhanced Watershed Management Programs or Watershed Management Programs and Coordinated Integrated Monitoring Programs, which are compliance alternatives in the National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System Permit. The Memorandums of Understanding will be between the County of Los Angeles and other participating Permittees in various watershed groups that have formed to collaboratively develop the aforementioned programs. Participating in these Memorandums of Understanding will allow the County of Los Angeles to comply with its obligations under the National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System Permit.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

On December 28, 2012, the new National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System Permit (MS4 Permit) became effective. Unlike previous permits, the new MS4 Permit encourages the 86 Permittees (including the County of Los Angeles) to collaborate with one another in the development of planning strategies and projects to comply with the Permit. The Permit allows a Permittee three alternative methods to comply with the provisions of the Permit. Permittees are required to notify the California State Water Resource Board – Los Angeles Region (Regional Board) of their intended compliance method by June 28, 2013. The three compliance alternatives were presented to the Board by the County of Los Angeles Department of Public Works (Public Works) on June 18, 2013, with a recommendation to notify the Regional Board of its intent to develop Enhanced Watershed Management Programs (EWMPs), Watershed Management Programs (WMPs), and Coordinated Integrated Monitoring Programs (CIMPs) collaboratively with other Permittees, in lieu of developing individual programs. The Board granted the authorization.

On June 18, 2013, the Board authorized Public Works to submit letters to the Regional Board stating the County's intent to collaborate with other Permittees in the development of collaborative compliance programs. A total of 70 Permittees (including the County) notified the Regional Board of their intent to develop EWMPs, WMPs, and CIMPs and formed 18 watershed groups to develop the aforementioned programs. The County will participate in 12 of the 18 watershed groups. In order to begin development of the compliance programs, the County will need to enter into Memorandums of Understanding (MOUs) with the other members of their watershed groups.

The purposes of the recommendations are to find that the recommended action is exempt from the California Environmental Quality Act (CEQA) and authorize the Director of Public Works or her designee to execute, on behalf of the County, cost-sharing MOUs substantially similar to the enclosed MOU, and amendments to the MOUs, for the collaborative funding and development of EWMPs, WMPs, and CIMPs to comply with the MS4 Permit. The County's total cost-share for each MOU, including subsequent amendments, will not exceed \$550,000, which includes a 10 percent contingency. The MOUs will establish the conditions under which the County and other participating Permittees in each MOU will collaborate in the development of the respective EWMP or WMP and CIMP. Examples of potential amendments to the initial MOUs include, but are not limited to, the following: changes to the number of Permittees participating in a watershed group and changes to the Scope of Work due to environmental requirements or clarifications of the MS4 Permit requirements by the Regional Board. Each watershed group will have an MOU to be executed by the participating Permittees.

Participating in the development of the EWMPs, WMPs, and CIMPs is part of the County's ongoing program to comply with the requirements of the MS4 Permit. Once completed and approved by the participating Permittees, the EWMPs, WMPs, and CIMPs will be submitted by each group to the Regional Board for review and approval, in compliance with the MS4 Permit.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provisions of Operational Effectiveness (Goal 1). The recommended actions support the development of a cooperative partnership with local agencies to provide a public service in an effective and efficient manner.

FISCAL IMPACT/FINANCING

In aggregate, the County's cost to collaborate in the development of the previously mentioned programs will not exceed \$4,500,000. This not to exceed cost includes consultant support, contract administration, and contingencies. Public Works' General Fund Fiscal Year 2013-14 Final Recommended Budget includes \$10 million ongoing net County cost for the Unincorporated Area Stormwater Program; these funds may be utilized for the MOUs and will be analyzed during Fiscal Year 2013-14 Supplemental Changes.

The County's and other participating Permittees' fair share of the cost to develop these programs will be agreed upon within each watershed group and reflected in each MOU. Costs are expected to be distributed based on the land area over which each Permittee has jurisdiction or responsibility.

Each group will determine when the participating Permittees will provide the funds required to develop the programs. Some groups are expected to require participating Permittees to provide their full share of the cost once the MOU is signed. Other groups are expected to distribute the cost among the years it will take to develop the programs, namely Fiscal Years 2013-14 to 2014-15, based on the deadlines in the MS4 Permit.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Each MOU will identify the party that will act as Contract Administrator and will be responsible for retaining consultant support to prepare the appropriate programs for the parties to the MOU. The County will serve as Contract Administrator for two watershed groups and, in this role, will invoice parties to the respective MOUs and receive payment for administrative fees and consultant services. Most MOUs will identify the specific not to exceed cost to the County and each of the other participating Permittees. However, the total cost to the County to enter into the initial MOUs and any subsequent amendments would not exceed the total authorization in this Board letter. We will return to the Board to request additional funds beyond the authorization obtained through this action, if needed.

The enclosed MOU is a representative example, typical of the Agreements the County will be executing. It has been reviewed and approved as to form by County Counsel.

ENVIRONMENTAL DOCUMENTATION

The proposed cost-sharing MOUs are categorically exempt from CEQA. The MOUs set forth how the participating Permittees will fund the preparation of EWMPs, WMPs, and CIMPs. These programs will be developed by consultants paid pursuant to these cost-sharing MOUs. The MOUs

to fund these consultants' activities are within a class of projects that has been determined not to have a significant effect on the environment in that they meet the criteria of Section 15306 of the CEQA Guidelines and Class 6 of the County's Environmental Document Reporting Procedures and Guidelines, Appendix G, dealing with data collection, research, experimental management, and resource evaluation activities that will not result in a serious or major disturbance to an environmental resource. These activities are part of studies leading to possible future actions, which the County has not approved, adopted, or funded.

As part of the studies, some consultants may engage in soil analysis, drilling, boring, trenching, backfilling, and other testing. These activities are within a class of projects that has been determined not to have a significant effect on the environment in that they meet the criteria of Section 15304 of the CEQA Guidelines dealing with minor alterations to land that do not involve the removal of healthy, mature, and scenic trees and Class 4(k) of the County's Environmental Document Reporting Procedures and Guidelines, Appendix G. These activities will not occur in a sensitive environment and there are no cumulative impacts, unusual circumstances, or other limiting factors that would make these exemptions inapplicable, based on the project records.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

There will be no negative impact on current services.

CONCLUSION

Please return one adopted copy of this letter to the Chief Executive Office, Community and Municipal Services Cluster and one copy to Public Works, Watershed Management Division.

Respectfully submitted,
